Just purchased it and already regret it..... I should not need to pay an additional \$97 to remove your branding.

Please issue a refund for my purchase.

FYI - your decline upgrade button does not work.... (see image attached).

Hi Tina,

Thank you for reaching out.

I understand your concern regarding the branding removal fee and the issue with the upgrade button. To help you complete your purchase smoothly, we can send you a PayPal invoice that allows you to make the payment to upgrade to Pro with just one click.

Kindly reply with the following details:

- The subscription type you'd like to purchase
- Your PayPal email id
- Your full name

Once we receive this information, we'll send over the invoice right away.

Best regards,

Teknikforce

Thank you for getting back to me promptly.

I invite you to go back, and read my email again. You did not understand what I said correctly.

The issue is NOT with the upgrade button, it is with the NO UPGRADE button that you have an issue with. I just shared it with you out of kindness so you can fix the issue on your website.

Teknikforce Ventures LLC Mail - Re: Thanks for Purchasing Webinarloop2

I am NOT interested in getting the PRO version and pay \$97 only to have the branding removed. This is why I asked for a REFUND, which you completely ignored...

I am happy to keep the product if you REMOVE your branding without any additional fee - without the PRO upgrade.

Otherwise, I am asking for a full refund since I cannot / will not use the product with your branding on it.

Please solve this without a constant exchange of emails back and forth...

Thank you,

Tina
